PROFESSIONAL EXPERIENCE

Renu Electronics Pvt. Ltd., Pune
SMT Machine Programmer

Sept 2018–Nov 2021

Softtech Solutions, Pune
Salesforce Trainee (Salesforce Training)

July 2021–Oct 2021

- I have gained knowledge of the Salesforce CRM and force.com platform which is helpful to build applications or solutions for maintaining relationships between businesses and customers.
- learned new skills like Salesforce admin, Development, Lightning aura, LWC, VisualForce and Flows.
- Development skills like Apex, Apex Triggers, Asynchronous Apex, SOQL, SOSL.
- Automation Techniques like Workflow, Process Builder, Flows, Approval Process.
- Tools – VS code, Data Loader, workbench.

Centelon Solution, Pune
Junior Consultant (Salesforce Trainee)

May 2022–Jan 2023

- I have 8.5 months of training experience in Centelon Solutions as 'Junior Consultant'. during this period, I learned new things and also revised my Salesforce Skills.
- I learned a new skill of Salesforce which is **Vlocity/OmniStudio**.It contains Flex card, Data Raptors, OmniScripts and Integration Procedure which was helpful to build a guided process for my Car Rental Application mini project.
- This omnistudio managed package is helpful to build a guided process for any requirements with no code.
- In this 8 months training period, we have done one mini project which is **Car Rental Application**. We have done this project in both that is in **LWC** and **Omnistudio**.
- Development skill – LWC, Apex Triggers, Flows, Salesforce Admin.

PROJECTS

BMI Calculator Application

- The purpose of this project is to know the BMI of any person and figure out their health condition on basis of BMI range. In this application, I developed one UI to get input from users like height and weight and also calculate their BMI Value. and it also indicates the person's health on basis of BMI value range.
- **Skills**: HTML, CSS, Java Script, Static Resources, LWC, SLDS.
- **Link:** **https://rupeshminde-portfolio-dev-ed.develop.my.site.com/bmi-calculator**

Alarm Clock Application

- The purpose of this application is to show a time to the user and also set alarm as per its need. In this project, I developed a UI for user to show the current time and he/she will also set and stop the alarm as per its need, and I also added one ringtone in this app. This ringtone gets sounds when the alarm is on.
- **Skills:** HTML, CSS, Java Script, Static Resources, LWC, SLDS, Parent to child Communication(vice-versa)
- **Link:** **https://rupeshminde-portfolio-dev-ed.develop.my.site.com/alarm-clock**

Currency Converter Application

- The purpose of this application is to convert one country's currency value to another, for that I developed one UI to get the amount value, country from value and country to values from the user and convert it with the help of API integration and show it on UI.
- **Skills:** HTML, CSS, Java Script, Static Resources, LWC, SLDS, API Integration.
- **Link:** **https://rupeshminde-portfolio-dev-ed.develop.my.site.com/currency-convertor**

Weather Application

- The purpose of this application is to fetch weather details of any city and show them on the UI. In this application, I build one UI to fetch city as input from the user and on the click of button it will fetch data (weather data) from other external sites with help of API Integration and show it on the UI.
- **Skills:** HTML, CSS, Java Script, Static Resources, LWC, SLDS, API server side Integration, Apex class.
- **Link:** **https://rupeshminde-portfolio-dev-ed.develop.my.site.com/weather-app**

Car Rental Application (LWC Component and SLDS)

- The purpose of this application is to reduce the manual work for managing the Car data, payment, booking Customer data. It tracks all the details about car, payment, booking, customer and reviews in salesforce. The site of this Car Rental Application is built upon Salesforce communities using custom salesforce lightning Components and user interface. It is designed using Salesforce Lightning Design System.
- **Skills:** HTML, Java Script, Static Resources, LWC, SLDS, Apex class, Triggers, Flows, Approval Process.

Car Rental Application (Vlocity / OmniStudio)

- It tracks all the details about car, payment, booking, customer and reviews in salesforce. With help of Omni Studio AppExchange org creating a guided process for this car rental application. In Omni studio we used data raptors for fetching data, creating a templates using flexcards, call multiple process in integration procedure and also developed a guided process by using omniscript.
- **Skills**: Omnistudio Flex Cards, OmniScripts, Data Raptors, Integration Procedure.
